

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Think about how long and tedious it would be to clean-up right after a party, with no help from equipment. Not too long ago, the dirt from carpets and upholstery had to be beat out of them manually; cleaning cloths, brooms, and brushes were the leading cleaning products back then.

The man who founded Nilfisk-Advance, P.A. Fisker, started out as an electrical engineer who really liked to work on electrical motors. After starting his business during 1906, he began to make motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's dream from the beginning was to own an international business selling products internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning trade. Mr. Fisker invented a incredible, ground breaking vacuum cleaner which can be operated by a single person since it just weighed 17.5 kilos! This invention came in a time where various cleaning machines were very big and required at least 4 operators, therefore, the Nilfisk C1 changed everything and evolved the way we clean forever. The mastermind behind these very first cleaning machines remains unparalleled. Cleaning equipment offer a brilliant solution to an existing dilemma; things get dirty and need to be cleaned frequently, without too much effort.

Gradually, the company Nilfisk-Advance grew through the years. During the early nineteen eighties the company grew fast when the company became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance forward within the business, aiming to be an active worldwide player in producing professional cleaning equipment. Nilfisk-Advance is presently located in every part of the globe due to gradually obtaining many smaller businesses so as to develop their product portfolio and presence in new markets. They are really proud to offer different cleaning solutions to fit each need.
