

Clark Forklift Part

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in use in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique designs of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark features a phenomenal Parts Supply team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Internationally, Clark has one of the most outstanding supplier support networks. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's continual mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their production facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants because this system is particularly economical and enables minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The contemporary value engineering agenda combines progressive product growth and provides improved consumer support and service within the industry.
