

## Concrete Hoppers

Concrete Hopper - The self-dumping hopper accessory could automatically trigger to both unload and release as soon as the bumper release contacts the side of a dumpster. Once dumping is completed, the hopper is able to go back to original upright and locked position. This particular piece of machinery is also obtainable along with a cable that allows operation from the seat of the lift truck to be able to have the option of manually unloading the hopper. There is a locking chain provided so as to lock the hopper to the tire truck. This particular product is made with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish in order to maintain durability.
