

Barrel Clamp

Barrel Clamps - A Barrel Clamp is actually a hydraulic or mechanical attachment intended for a forklift. It can be utilized so as to clutch the item you wish to move with the lift truck and is often utilized for handling paper rolls, barrels, and kegs. Several types of barrel clamp accessories even have a revolving function. Like for instance, the revolving function allows a forklift operator to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
